Fred Monk, Audrey Mouser, David Onsrud, Linda Pfaff

*Dedicated to protecting the rights, promoting the interests,
and supporting the lives of people with developmental disabilities.*

www.citizenadvocacylacrosse.org

*Citizen Advocacy creates and supports one-on-one relationships
between community members and individuals
with developmental and related disabilities.*

A Citizen Advocate:

- Believes and reminds others that all people have the same needs and feelings.
- Gives the person someone they can trust to value their opinions and contributions to the community.
- Shows others that individuals with disabilities are more like other people than they are different.
- Makes sure that people are included in real work, real living situations, and a real part of community life.
- Supports everyone's need for choice, dignity, and the opportunity to make real decisions.
- Makes a long term commitment to sharing life.

*Never doubt that a small group
of thoughtful, committed citizens
can change the world.
Indeed, it is the only thing
that ever has.*

MARGARET MEAD

Citizen Advocacy

Since 1979, the La Crosse Citizen Advocacy Program has been successfully matching community members with individuals with developmental and related disabilities. The purpose of this matching is to individually protect the rights, promote the interests, and support the lives of individuals with disabilities by becoming involved in their lives. La Crosse is only one of approximately 30 programs around the world. Through this unique program we have witnessed the personal power of citizens to make a difference, and recognize the profound impact that one-on-one relationships can bring to our community as a whole. Citizen Advocacy programs are based on the principles designed by Dr. Wolf Wolfensberger of Syracuse, New York.
